

# WE'RE HIRING!

Assistant/Associate Extension Professor and Seafood  
Technology and Food Safety Specialist

**This is a 100% Cooperative Extension appointment**

The position will be based at the University of Maine in Orono and will provide food safety education and research to support the Maine Seafood and Aquaculture Industries. The position will assist with the development of new processes, and training to support the industry's workforce. The position will conduct applied research and scholarship in collaboration with colleagues within Cooperative Extension, the UMaine School of Food and Agriculture, and others.

## Highlights

- Work with an established and Innovative Maine seafood industry
- Collaborate with Maine Sea Grant, UMaine's School of Food and Agriculture, and the Aquaculture Research Institute (ARI)
  - Access to ARI's team, outreach, research, and communications support and facilities
- Perform research that impacts Maine seafood and aquaculture businesses
- Continue and develop food safety programming including AFDO Seafood HACCP training and commercial sanitation training
- Excellent benefits package, including comprehensive healthcare and retirement

Salary information available upon request. For more information please contact Associate Dean Jason.Bolton@maine.edu
